

# KNIGHT FRANK VALUATION & ADVISORY

# INDEPENDENT GLOBAL

The difference between mediocrity and excellence is multi-sector and international teamwork. That's what Knight Frank stands for.

## SETTING STANDARDS

We work according to clearly defined principles to offer you the best possible service. Our highly specialised teams make systematic use of our market knowledge and professional expertise. We have one objective – to offer the maximum benefit to you.

Sector analysts, investors, owners and credit institutions rely on our expertise.

We are proud to follow the ethical guidelines set out by the Royal Institution of Chartered Surveyors. This guarantees the maintenance of the highest standards in valuation practice.

A black and white photograph taken from a low angle looking up at several modern skyscrapers. The buildings are covered in glass windows, creating a grid-like pattern of light and dark squares. The perspective makes the buildings appear to converge towards the top of the frame, creating a sense of height and scale. The sky is visible in the background between the buildings.

# GUARANTEED QUALITY

Valuations, analyses and due diligence reports: Knight Frank's competence as an independent company is key to your success. The benefit is yours, whether you are an institutional investor, bank, company or private individual. We are accredited by HypZert, TEGoVA and the RICS and possess all necessary qualifications to carry out valuations according to recognised German and international standards. Furthermore, our client liaison, project planning and operational procedures are monitored by external auditors.

Our specialists in the fields of financing, architecture, construction and city planning offer you their know-how, experience and a local and international network of contacts.

# REST ASSURED

We augment our specialists' many years of experience and profound market knowledge with innovative tools in the valuation of properties and their value enhancement potential. We are able to handle all assignments, no matter how large.

We are proud to place our human resources, our global network and our effective use of synergies at your disposal.

Please get in touch with us. We look forward to hearing from you.
